COLUMBIA rugs, authentic in design, being genuinely hand made of the best obtainable materials and always in the best of taste, are decidedly worth while. That such rugs possess a not inconsiderable intrinsic value is amply born out by the prices they command when occasionally one is offered for sale. Your rug will be something of which you may well be proud.

Set up the frame as shown in Figure 1. Note that the COLUMBIA frame stands on its own legs, which eliminates the inconvenience of finding a rest for it each time that you work. It may be folded together easily by loosening the frame in the slots and allowing it to hang vertically without loosening the pattern. Thumb tack the ends of the burlap or canvas pattern, stamped side up, onto the cross pieces, and roll up to the far (high) end until the material is taut. Then tighten the end screws. Now fasten the sides with thumb tacks. After working a portion of the pattern, reverse the frame in the stand and roll the finished portion onto the far (high) end of the frame.

The COLUMBIA DE LUXE NEEDLE consists of a special handle, with yarn guide and lock, together with four fully adjustable self-threading tubes of new and improved design. This provides in one device a needle for every kind of yarn and every type of hooked work.
